SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought
- In honor of the Memorial Day holiday, the State Operations Center (SOC) will transition to Level 1 status on Monday, May 26, 2014. The OES Region conference calls normally conducted on Mondays are rescheduled to Tuesday, May 27, 2014.
- Current Drought Monitor [Here](#)

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Weak high pressure over the North Coast tonight will bring patchy fog and some localized drizzle through sunrise. A weak short wave crossing on Friday is forecast to bring a slight cooling to Northwest California and atmospheric instability. There is a slight chance of thunderstorms over the interior mountains Friday afternoon and early evening in association with passage of the short wave.

San Francisco Weather:

An upper level ridge will build through this weekend. Warmer temperatures can be expected inland, but night and morning low clouds with patchy fog can be expected along the coast for the next several nights. Temperatures will cool to near normal early next week.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

A weak low pressure area will move into the Pacific Northwest today bringing a slight chance of showers and thunderstorms to the southern Cascades. Otherwise, conditions will be dry and a little warmer.

Hanford Weather:

There will be just a slight chance for showers over the Sierra through the weekend as a low pressure system pulls slowly away. Otherwise dry and warming over Central California through the Memorial Day weekend as a high pressure ridge builds in.

WEATHER SYNOPSIS BY REGION: (Cont.)

SOUTHERN CALIFORNIA:

Los Angeles Weather:

High pressure will gradually build through the weekend. This will bring a warming trend to the area, although night and morning stratus will continue to impact the coastal areas. For early next week, a trough will develop along the West Coast bringing cooler conditions and a continuation of the coastal stratus and fog.

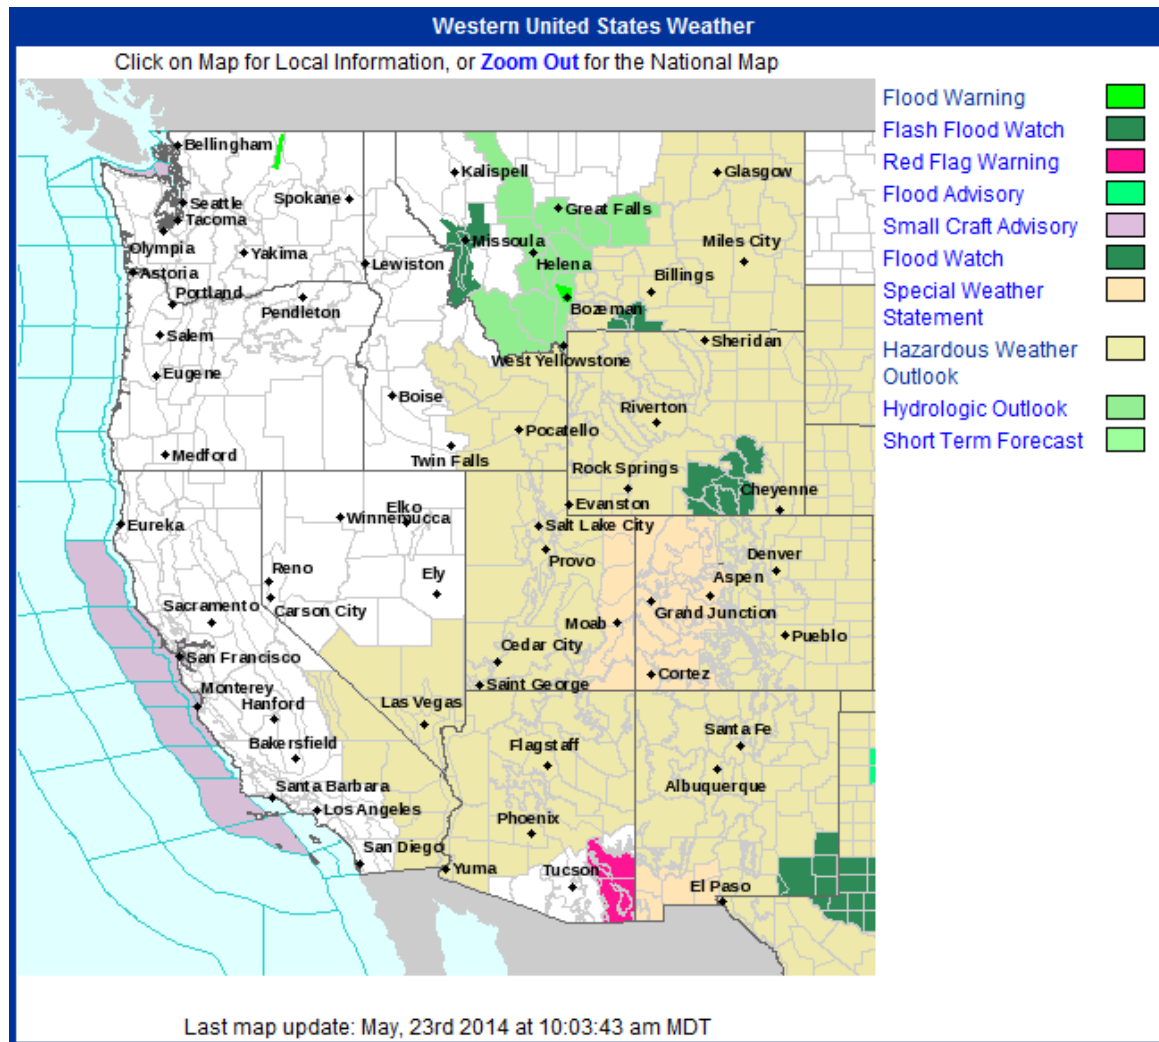

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Low pressure aloft will continue the chance of scattered showers over the mountains and deserts this afternoon. Isolated thunderstorms are possible as well. Dry and warmer weather will then develop over the holiday weekend as high pressure builds aloft and the marine layer thins back to the coast. Areas of low clouds and fog are likely each night and morning becoming mostly sunny for the afternoons. Cooler temperatures will present again for the latter half of the week as a low pressure trough redevelops along the West Coast.

Southeast California Weather:

Slight chances for showers and thunderstorms will persist in the Mojave Desert and southern Great Basin. Temperatures will warm a few degrees each day, reaching well above normal by Memorial Day.

CAL OES DROUGHT ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

Cal EOC Incident – 2014 Drought

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

On April 25, 2014 Governor Brown released an Executive Order on Friday enabling several urgent actions to be taken as the drought persists into the state's traditional dry season.

**** As this rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly over the coming months. This winter's below average rain and snowfall worsens conditions in this third straight dry year.****

Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The final manual snowpack survey of the season was conducted on Thursday (May 1) and showed California snowpack at 18% of normal. The most recent electronic readings record snowpack water content at only 6% of normal for the date.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

CAL OES MISSIONS

New Cal OES Missions

- **2014-LAW-3667** California Highway Patrol (CHP) in Yolo County requesting Sacramento County Sheriff's DART for a submerged vehicle in the Sacramento River near Road 108 and Knights Landing. CHP suspects the sedan has been submerged for several days and does not believe anyone is in the car but due to the river's poor visibility it can not be confirmed. California Governor's Office of Emergency Services(Cal OES) LDO coordinated with Sacramento County Sheriff's Department for a DART mission to assist in recovering the submerged car, which is planned for this Saturday, 5/24/2014 at 0800 hours. **Mission Ongoing**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
